

IBM Internet Security Systems

Product Lifecycle Announcement: IBM Proventia® Network Intrusion Prevention System October 5, 2007

New Release – GX5108-SFP and GX5008-SFP

IBM Internet Security Systems (IBM ISS) Proventia® Network Intrusion Prevention System (IPS) GX5108-SFP and GX5008-SFP are now available for sale.

Network protection has been enhanced to support the eight port fiber configuration for the Proventia Network Intrusion Prevention Systems GX5008 and GX5108 with the new small form factor pluggable (SFP) port configuration. This enhancement offers a flexible solution to meet customers' dynamic and diverse infrastructure needs. Supported port configurations include:

- Copper ports
- Copper and SFP port mix
- SFP ports for copper 1000BASE-TX, and fiber 1000BASE-SX and 1000BASE-LX

Product Lifecycle Information

This release does not affect the product lifecycle for the current shipping Proventia G/GX Network IPS systems.
